

Great! You've decided to head on down to the local Karaoke bar and have yourself a good time. Use this worksheet as a checklist to guide you through the night.

- Avoid your mother tongue when singing songs.**
  
- Sing at least 5 songs without making one mistake.**
  
- Get your friends to sing a song played by a band with you.**
  
- Learn at least 10 words without really trying.**
  
- Notice 3 grammar patterns in the lyrics you're singing.**
  
- Find 3 songs in your target language NOT sang by native speakers.**
  
- Sing at least 2 different genres of music to practice your dialect/accent.**
  
- Record yourself singing and ask for feedback later on from a native speaker.**

Enjoy the night! You earned it, but don't get too crazy (you still need your voice to speak).
